INTRODUCTION

Skilled Java Full Stack Developer proficient in Java, JavaScript, Python, and front-end technologies like HTML and CSS. Strong in problem-solving, Data Structures and Algorithms, full-stack development, and debugging, with expertise across all stages of the Software Development Life Cycle (SDLC). Able to solve complex problems, collaborate effectively with teams, and quickly adapt to new technologies. Knowledgeable in Manual Testing and JUnit Testing, ensuring software quality and reliability. Focused on delivering high-quality, client-driven solutions while optimizing system performance and efficiency..

EXPERIENCE

- **Support Engineer**

- **Artech L.L.C** JAN 2024 – Present
  As an IT Support Specialist at Artech, I provide seamless IT services to KPMG, ensuring smooth technology operations. I specialize in troubleshooting hardware, software, networking, system optimization, and supporting Java-based applications while maintaining a strong focus on customer satisfaction and efficiency. Skilled in Windows, SCCM, Citrix, Active Directory, Microsoft Office, and Lakeside SysTrack for system monitoring and issue resolution. Efficiently resolves issues using ServiceNow, minimizing downtime. Works closely with KPMG's IT team and maintains IT documentation for streamlined operations. Supports new implementations and contributes to training initiatives to enhance technical proficiency.

EDUCATION 🎓

2019 - 2023	B.Tech in Chemical Engineering	**Jawaharlal Nehru Technological University Anantapur**
